RESPONSIBILITIES OF THE DISTRICT SUPERINTENDENT

24. Dr. Freeman, as the District Superintendent, is responsible for the administration of the schools under the direction of the Board, and in compliance with all the requirements of Board policy and the Public School Code. Dr. Freeman is also responsible for all duties specifically enumerated in the job description on "Appendix A" attached hereto and incorporated herein by reference. Dr. Freeman shall recommend, administer and enforce the policies and programs of the Board. No duties will be performed that conflict with Board policy.
25. Dr. Freeman shall have a seat on the Board and the right to speak on all issues before the Board, but shall not have the right to vote. Dr. Freeman or his designee(s) shall have the right to attend all regular and special meetings of the Board and all committee meetings thereof, excepting (at the option of the Board) those executive sessions relating to his own

employment or his performance evaluation, and shall serve as advisor to the Board and its committees in all matters affecting the District, and he will inform the Board as to administrative actions taken on its behalf.

ROLE OF THE SCHOOL BOARD AND THE DISTRICT SUPERINTENDENT

26. The Board has a dual role: To represent the concerns of the citizens, taxpayers, and parents to the school administrators, and to represent the needs of the students and School District to the citizens, taxpayers, and parents of the community. The Board does not operate the District on a day-to-day basis; this is the job of the District Superintendent, who is the District's chief executive officer. Rather, the Board, in consultation with the District Superintendent, sets the policies, goals, and objectives for the District, and holds the District Superintendent responsible for achieving the goals.
27. At any given time, the Board reviews guidelines and policies and has questions concerning their implementation, the Board President will bring those concerns to the District Superintendent. If corrective action concerning guidelines and/or policies is needed, the Board will advise the District Superintendent and give appropriate time measures for the District Superintendent to make corrective action.

EVALUATION AND OBJECTIVE PERFORMANCE STANDARDS AND ASSESSMENT

28. The performance of the District Superintendent shall be assessed against the objective performance standards listed below. The Board and District Superintendent hereby mutually agree to the following performance standards:

Student Growth and Achievement: The District Superintendent uses multiple data sources to assess student success and growth as appropriate, specific to needs within the District and as determined annually in collaboration with the Board. Annual or other District performance objectives are articulated and clearly achieved under the direction of the District Superintendent relative to PSSA, PVAAS, and other locally determined measures.

Organizational Leadership: The District Superintendent has worked collaboratively with the Board to develop a vision for the District, displays an ability to identify and rectify problems affecting the District, works collaboratively with District administration to ensure best practices for instruction, supervision, curriculum development, and management are being utilized, and works to influence the climate and culture of the District.

District Operations and Financial Management: The District Superintendent manages effectively, ensuring completion of activities associated with the annual budget; overseeing distribution of resources in support of District priorities; and directing overall operational activities within the District.

Communication and Community Relations: The District Superintendent communicates with and effectively engages the staff, the Board, and members of the community, clearly articulating District goals and priorities, addressing local and broader issues affecting the District, and building support for District initiatives, programs and short/long-range plans.

Human Resource Management: The District Superintendent incorporates best practices for human resource management and oversight, coordinating staffing, recruitment, and other human resource functions.

Professionalism: The District Superintendent models professional decision-making processes and ethical standards consistent with the values of Pennsylvania's public education system as well as that of the local community. The District Superintendent additionally works to individually reflect upon his effectiveness within the role, and works to improve effectiveness through the use of professional development literature and activities.

29. The key performance indicators under each objective performance standard will undergo an annual review by the District Superintendent and the Board of School Directors. Modifications may be made by the Board of School Directors to address the current nature of challenges, issues and needs facing the District. The Board shall provide the District Superintendent with periodic opportunities to discuss District Superintendent/Board relationships.
30. In December of the evaluation year, a simple survey will be given to each member of the Board to assess the District Superintendent's progress toward meeting the goals.
31. The Board should determine by/before March 1 of the evaluation year if any issues need to be resolved within the District Superintendent's responsibilities as relating to a less than "proficient" rating. Any evaluation of the District Superintendent by a Board member that is less than "proficient" will be cause for the District Superintendent to request a meeting with said Board member and the Board President, providing the factual evidence to support the Board member's evaluation.
32. The Board shall evaluate the District Superintendent annually in accordance with Public School Code, statutes, regulations and Board policy relating to the District Superintendent evaluation. Each annual evaluation shall be in writing and shall represent a consensus of the Board. The written performance assessment will be completed no later than June 30th of each year during the term of this Agreement. The District Superintendent's performance related to the objective performance standards will be posted annually on the District's website.

TERMINATION OF EMPLOYMENT

33. Throughout the term of this contract, Dr. Freeman shall be subject to discharge in accordance with and for valid reasons specified in the Public School Code and District policy. In the event Dr. Freeman is so discharged from employment, this contract shall be terminated, with no additional benefits provided.
34. **Severance.** If Dr. Freeman's employment is terminated by mutual agreement of the parties:

The Board may, at its sole discretion, waive the ninety (90) day notice provision and accept an earlier resignation date. The severance set forth in paragraph 34 shall not be due if the District Superintendent unilaterally terminates this Agreement.

- d. **Health, Vision, and Dental Insurance.** The District shall provide for the same level of healthcare insurance (i.e., Individual, Husband/Wife) being provided to Dr. Freeman as of the date of retirement for ten (10) years or until he becomes eligible for a government provided or sponsored plan, whichever occurs first.

After Dr. Freeman is no longer eligible due to age or death, his spouse may continue to participate in the District's healthcare insurance plans, at his/her personal expense until eligible for a government provided or sponsored plan.

Dr. Freeman will be responsible for the monthly contribution toward the cost of health insurance benefits according to the Act 93 Plan in effect.
